

Lavender Medical Modern Slavery Statement 2026

Introduction

Lavender Medical Limited is not required to publish a statement under section 54 of the Modern Slavery Act 2015, as its turnover is below the statutory threshold. We publish this statement voluntarily to set out our commitment to preventing modern slavery and human trafficking in our business and supply chains.

Our Business

Lavender Medical Limited (company number 06828106) is a UK distributor of orthopaedic and sports medicine medical devices, based in Letchworth Garden City, Hertfordshire. We supply NHS Trusts and private hospitals across the UK. We do not manufacture products ourselves; our products are sourced from specialist medical device manufacturers in the UK and internationally.

Our Commitment

Lavender Medical is committed to ensuring that modern slavery and human trafficking play no part in its business or supply chains. We aim to work with long-term partners who share this commitment and who meet high legal and ethical standards.

Our Supply Chain

We consider our supply chain to be the main area of potential risk. We take a risk-based approach to our suppliers, taking into account factors such as their country of operation and the products they supply, and we expect our suppliers to take appropriate steps to address modern slavery in their own businesses and supply chains. Where a supplier does not meet our standards, we will take appropriate action, which may include ending the relationship.

Our People

We employ our staff directly and in line with UK employment law. We encourage staff to raise any concerns about modern slavery or other human rights issues, and any concerns raised will be looked into and acted on as appropriate.

Review

We will keep our approach under review and update this statement as our business develops.

Ramzi Saab
CEO, Lavender Medical Limited
